

MSc Business with Financial Management

London Campus

Level of study: Postgraduate

Mode of study: Full-time

Duration: 1 year

Response to Covid-19: Our focus is on providing a safe and welcoming learning environment and ensuring continued access to learning.

As a result of the coronavirus (Covid-19) pandemic and resulting social distancing requirements, we are intending to teach this course using a mix of on-campus and online learning activities. We continue to be guided by the Government to ensure our campus is Covid-secure. More information about our [response to Covid-19 and FAQs are available here](#).

All information is accurate at the time of sharing. Courses starting in 2021 are offered as a mix of face to face and online learning. We continue to monitor government and local authority guidance in relation to Covid-19 and we are ready and able to flex accordingly to ensure the health and safety of our students and staff. Contact time is subject to increase or decrease in line with additional restrictions imposed by the government or the University in the interest of maintaining the health and safety and wellbeing of students, staff, and visitors, potentially to a full online offer, should further restrictions be deemed necessary in future. Our online activity will be delivered through Blackboard Ultra, enabling collaboration, connection and engagement with materials and people.

Overview

Working in a large, modern, international organisation, a medium-sized company or even a small start-up firm requires a range of business capabilities. The most valuable employees are those who combine an understanding of the various parts of a business with the skills of being a quick learner and team player with leadership potential. The MSc Business with Financial Management programme will give students the general business knowledge and understanding as well as the personal skills needed for a wide variety of roles.

This programme is run as part of our Newcastle Business School, part of a select group of business schools worldwide, following accreditation by the Association to Advance Collegiate Schools of Business (AACSB) in business and accounting – the first in Europe to gain the double accreditation. Founded in 1916, AACSB International is the longest-serving global accrediting body for business schools that offer undergraduate, master's, and doctoral degrees in business and accounting.

Key facts

- Build your knowledge of finance and the impact this can have on business management
- Specialise in financial management in your second semester
- Developed for non-business graduates
- Newcastle Business School is part of a select group of business schools worldwide, following accreditation by the Association to Advance Collegiate Schools of Business (AACSB) in business and accounting – the first in Europe to gain the double accreditation
- Also available as [MSc Business with Financial Management with Advanced Practice](#)
- Upon completion of your programme, you will be eligible for the QA Professional Pathways programmes which will enable you to further develop your skills with one of the UK's largest providers of IT and project management training

Duration: 1 year

Assessment methods: Coursework and exams

Scholarships or bursaries: available

Student finance: available

Payment plan: available

Starts: Jan, May, Sep,

About this course:

What will I study?

As part of our 'Business with' collection of programmes, the MSc Business with Financial Management is designed to give you an overall understanding of the inner mechanics of business, whilst building the general skills desired for a wide variety of roles and growing your business acumen. It is also your chance to focus on financial management and perfect if you are looking to develop your understanding of a fundamental aspect in all businesses.

The programme is designed around a set of modules that are common to all 'Business with' pathways. These modules cover general business functions, strategic management and organisational analysis and will develop your strategic awareness, leadership potential and understanding of international business.

In the second semester, you will be given the opportunity to specialise in Financial Management. In the remainder of the programme, you will complete your research and writing up of your dissertation. Every student has a personal research supervisor and will be required to submit an assessed research proposal prior to embarking on the dissertation itself.

This programme is also available as MSc Business with Financial Management with Advanced Practice which includes either an internship or project.

How will I be taught and assessed?

- You will be taught through a mix of lectures, seminars and workshops, totalling around **14 hours per week**.
- You will also be expected to engage in an independent study involving directed and self-directed learning, around **33 hours per week**.
- **Assessment** for this programme takes place through group work, assignments, presentations and exams giving you multiple methods for you to show your understanding of the course material.
- Benefit from **weekly academic support sessions** designed to build your ability and confidence as an academic learner.
- Significant emphasis is placed on **developing your ability to complete a Masters degree**. As part of your induction, you will be made fully familiar with the learning resources and support available to you.
- **Technology Enhanced Learning (TEL)** is embedded throughout the course to guide your preparation for seminars and independent research.

Careers and further study

Graduates on the programme have joined a wide range of businesses, including graduate training schemes. A significant number of graduates have gone back to work for a family business or even started up their own businesses.

Upon successfully completing your course, you may undertake further professional development and training through Professional Pathways programmes. These are offered to our graduates for free, from our partner, QA. [Find out more about the Pathways available and your eligibility.](#)

Entry requirements

Academic requirements

- Minimum of a 2:2 (second class) honours degree from a UK university or equivalent
- Professional qualifications with equivalent standing which had a significant requirement for academic study may also be considered

If you don't meet the academic requirements

Applicants who do not have such an academic qualification but do have substantial experience of working in a business organisation and/or possess a relevant professional qualification will also be considered.

If you're unsure if you meet the entry criteria, please [contact us](#) and our team will be able to advise you.

Alternatively, you may be eligible to join one of our [Pre-Masters programmes](#). These are specifically designed for students who do not yet meet the entry requirements for our postgraduate degrees and would like to bridge this gap in their qualifications. Upon successful completion of one of our Pre-Masters programmes, you will be eligible to join one of our Masters programmes.

Please visit our [entry requirements](#) page for country-specific qualifications.

English language requirements

Students require IELTS 6.5 (or above) with no single element below 5.5 or equivalent.

If you have IELTS 5.5 – 6.0, you may be eligible to join our [Pre-Sessional English](#) before studying this programme.

Modules

All modules are core and 20 credits unless otherwise stated.

Strategic Management for Competitive Advantage (40 credits)

This module is aimed at students who have little or no prior business and management subject experience. The aim of the module is to introduce you to the main business functions – Finance, Marketing, HRM, Operations – and show how each can contribute to the competitive advantage of a firm and hence enable the firm to achieve its strategic objectives.

You will undertake lectures and seminars in the four key business functions – Finance, Marketing, HRM, Operations throughout the course of the module, alongside the development of an understanding of the overarching principles of setting and executing an organisational strategy. The latter will consist of developing a business plan, assessing the business and competitive environment, defining and evaluating competitive strategy.

If you have prior working experience in one or more of these functional areas, the module aims to both broaden and deepen your understanding and encourage you to take a wider view of the different parts of the firm.

Leadership and Management Development

This module engages you in personal and professional development in order that you develop and hone your team working, management and leadership skills, capabilities and attributes, and in so doing, enhance your employability. On this module, you will not only prepare for your first job after you graduate but also kick-start your commitment to life-long personal and professional learning.

In the first part of the module you will be supported in a self-analysis by a range of activities, including the completion of self-administered tool-kits to demonstrate an increased self-awareness and self-understanding. A key outcome of this process is how you will be able to exploit this development in order to lead, and manage, more effectively in your future careers.

The second part of the module contains activities which enable you to build on your self-analysis and explore further your strengths, weaknesses and areas for development in the context of your career development plans. This will also include the development of knowledge into the global graduate market, (including routes such as self-employment and developing your career with an existing employer) drawing upon local, national and international examples.

Research Methods and Analytics for Business Practice

This module will provide you with the essential knowledge and analytics skills needed for you to complete a high-quality Masters Dissertation. By undertaking and reflecting on practical research-based activities you will understand the process of designing and carrying out a research study, also you will engage in activities that involve an understanding of data and analysis of data. This will place you in a strong position to undertake your own Masters level research. At the end of the module, you will write a research proposal, this will be assessed and will contribute to your final mark. In the dissertation you will work under the supervision of a member of the academic staff and your proposal will also help to ensure you get the most from this relationship.

International Financial Markets and Institutions

As the economic and competitive environments change, the study of International Financial Markets and Institutions is inevitable at postgraduate finance education.

This module will provide a comprehensive understanding of the theories and concepts operating within the international financial markets and institutions. Furthermore, the recent trends within the financial markets, the financial crisis and the regulatory responses will be covered.

You will learn about different types of financial institutions, instruments (equities and bonds), regulations and policy approaches. The module aims to develop and enhance students' knowledge and skills in the area of financial management in a changing and challenging corporate environment.

Corporate Financial Management

The study of Corporate Financial Management, which addresses the core concepts, questions and decisions which sit behind the creation of corporate value (Investment Decisions, Financing Decisions, Dividend Decisions) are a key part of any student's engagement with the discipline of financial management. The module introduces you to core concepts regarding the objective of finance, how capital is first raised and then deployed into wealth creating operations and then how wealth is then returned to the providers of capital in an optimal way.

Academic Language Skills for Post-Graduate Business Students (0 credits)

The aim of this module is to support your study, language and communication skills for academic purposes in the study in your chosen discipline at postgraduate level. The module is designed to enable you to become an advanced independent learner. The module is supported by a teaching and learning plan which outlines the formal sessions. Interactive workshops will be tailored to address some of the specific issues that you meet within your discipline. You may also be asked to complete some preparation tasks for some seminars but these will be kept to minimum. You will be expected to identify those skills which you need within your postgraduate programme, and to develop these independently through a range of learning activities that might include extended reading, and reflection.

The Newcastle Business School Masters Dissertation (60 credits)

You will design a research project of 15000 words while working under the supervision of a member of academic staff who will give you appropriate guidance and support throughout the dissertation process whilst encouraging learner autonomy: this is your dissertation and you will have responsibility for decision making as the dissertation proceeds. You will use appropriate research methodologies and data collection methods to critically synthesise a body of knowledge relevant to the taught programme.

For successful completion of this module, you will conduct research and organise the findings into a comprehensive and explicit structure that is critically assessed and is linked to the conclusions drawn. You will demonstrate this by identifying a topic, critically selecting and applying an appropriate research methodology and data collection method(s) to your chosen research topic, demonstrating a rigorous understanding of the relevant theory and literature and showing how these link to the research method(s). You will also critically reflect on how your research contributes to

the understanding of the topic area.

Fees and finance

Tuition fees 2021/22

- **UK/Home students:** £9,450
- **International students:** £16,000

Tuition fees 2022/23

- **UK/Home:** £10,206
- **International students:** £16,500

Please note that your tuition fees do not include the cost of course books that you may choose to purchase, stationery, printing and photocopying, accommodation, living expenses, travel or any other extracurricular activities. As a Northumbria University London Campus student, you will have full access to our online digital library with over 400,000 e-books and 50,000 electronic journals.

The modules you will study do not require you to purchase additional textbooks although we recommend you allow an additional £150 for the duration of your studies should you choose to purchase any additional reading materials.

What's included in your tuition fees?

Your tuition fees cover far more than your time in class with our expert academics, it covers the cost of providing you with excellent services and student experience.

- Contact time in class – typically in lectures, seminars and tutorials
- Access to facilities, including computers, on-campus Wi-Fi, printers, vending machines, quiet study spaces
- The support of our Careers & Employment Service who help you to become more employable, secure placements and run workshops
- Academic support – our ACE Team run multiple sessions on academic writing, presenting, exam techniques throughout the semester, as well as 1-2-1 appointments and drop-in sessions
- Student support services such as our Ask4Help Service. Find out more about the services available to you on our [Student Support](#) page
- Access to online resources, including 24/7 Library with over 400,000 e-books and 50,000 electronic journals.
