About your course

Courses covered:

Code	Title
HHMCLP	MSc Research in Clinical Psychology

You can find full details of your course in the *Programme Specification*.

Important points

- This Masters programme is particularly attractive to those wishing to pursue a professional career in Clinical Psychology, or a career as a researcher in the area of mental health.
- It provides you with an up-to-date introduction to Clinical Psychology covering all essential areas of knowledge relating to current theories of psychopathology, psychiatric diagnosis and psychological methods of assessment as well as effective psychological interventions.
- The module Professional Clinical Skills will introduce you to professional standards in clinical psychology and provides you with an opportunity to practice those skills in a simulation exercise.
- A particular strength of the programme is its intensive research training in the area of quantitative and qualitative research. This should enable you to develop your competence in applying such methods to research problems in the area of clinical psychology.
- The module Research Internship in Clinical Psychology allows you to familiarise yourself with professional research through practical experiences under supervision.
- Following on from your internship, you will then conduct your own research for your master's thesis in an area of your interest under supervision.
- Teaching includes lectures, seminars, practical sessions in class, workshops, group work and simulation exercises.
- There are two major components of assessment, exams and written coursework. Coursework is by far the larger component.
- Part-time and full-time routes are both available.

Academic Year

Academic Year 2021 - 2022

The University's academic year is made up of 3 Semesters. For most postgraduate students the academic year is split into two Semesters (A & B). Each of these is made up of teaching weeks followed by exams (the re-sit period and MSc project fall within Semester C).

- Semester A runs from Monday 27 September 2021 to Friday 21 January 2022
- Semester B runs from Monday 24 January 2022 to Friday 13 May 2022
- Semester C runs from Monday 16 May 2022 – Friday 09 September 2022

Due to the ongoing effects of the pandemic some teaching sessions may be delivered online. Therefore, to study online you will need access to a suitable computer or similar electronic device and a good reliable Internet connection, which may incur additional expenses.

Please note that our Learning Resource Centres (LRCs) have PCs and Macs available to use, including hi-spec PCs. The university also has laptop loans available at both LRCs and provide a remote desktop portal service to allow users to access the software on Lab and LRC Windows PCs when not on campus.

Additional expenses

Description	Year	Mandatory/ Optional	Estimated cost
No additional expenses have been specified for this course.
